QUANTITIES, SPECIFICATIONS, SCHEDULES of PRICES, WORKING DRAWINGS, &c. carefully prepared, or revised.

PLANS, ELEVATIONS, DRAWINGS of MACHINERY, &c. in Outline or Water Colours.

BUILDERS' and CONTRACTORS' ACCOUNT-BOOKS; DRAWING PAPERS; ditto, mounted and cartoonned; TRACING PAPER and CLOTH; ditto in lengths.

GENERAL STATIONERY, for the use of BUILDERS, ARCHITECTS, SURVEYORS, and ENGINEERS, at the lowest current rates.

WATERLOW and SONS, 49 to 65, London-wall; and 49, Parliament-street, London.

Contracts for the supply of large establishments.

BILLS of QUANTITIES.—DAY and SON, Lithographers to the Queen.—Lithograph Bills of Quantities with the greatest despatch, and at a vast saving on the prices generally charged.

Perspectives got up from Geometrical Drawings, either in Outline or Water Colours.

17, OATE-STREET, LINCOLN'S-INN-FIELDS.

STEPHENS'S ORIGINAL DYES, for STAINING COMMON DEAL to imitate OAK, MAHOGANY, or SATINWOOD colours. For specimens of the effects of these Dyes, the public are referred to the WINDOW-WORK of the GREAT EXHIBITION, and particularly the ENTRANCE DOORS, which were coloured with the stains invented and manufactured by HENRY STEPHENS, of 56, Shandford-road, Blackfriars-road, who supplied to the workmen both stain and varnish, and who was the first person to introduce and call the attention of the public to this means of colouring wood, so as to bring forth the ornamental effect of the natural grain, and thus mate the expensive of artificial imitation.—Prepared and sold by HENRY STEPHENS, 56, Shandford-street, Blackfriars-road.

HUBBUCK'S PATENT WHITE ZINC PAINT.—THE PERMANENT WHITE of the Ancients, by its costliness hitherto restricted to the use of the artist, is now offered at the price of the ordinary white lead paint.

Four years since the proprietors placed their manufactures on a large scale, and put this elegant Paint in competition with White Lead.

Its confessed superiority over every other paint hitherto known brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing lead, arsenic, and other deleterious material, of the injurious to health, deteriorated in body, and reduced the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence, that it is all the same.

Hubbuck's Paint is entirely free from any injurious properties whatever, it is healthful in the manufacture, healthful to use, and healthful to occupants of rooms painted with it.

As a guard to the purchaser against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT;"

and if the cask has not been so marked, the reason is obvious.

The powdered White Zinc also may be had for grinding in oil; also for use for porcelain cards, for japanners, for gutta percha, and for plaster decorations, and the other purposes where it is used with zinc gum, varnish, spirit, &c. &c.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, from the VIEILLE MONTAGNE ZINC MINING COMPANY of BELGIUM.—This PAINT is superior in every respect to white lead; it is unequalled in whiteness, and grows very hard after it is applied; and is, therefore, for interior work, unexceptible of a high polish. Besides, it is entirely free from all poisonous influences, is unaffected by sea-water, sulphuretted hydrogen, or any gases, and preserves its original colour, which white lead does not do.

WHITE ZINC PAINT causes none of the ravages invariably committed by white lead upon the human frame; neither painter's colic, nor paralysis, &c. &c. to which dangerous complaints the workmen and manufacturers who use it are subject, and to which persons who inhabit newly-painted apartments are also liable. Pliant in introduction into the United Kingdom by the sanction of the Admiralty and the most eminent professional men have given it their preference over any other paint. The public is cautioned, that if white zinc paint is adulterated, it becomes a very inferior paint, instead of a first-rate one, and peels or washes off on outside work.

The VIEILLE MONTAGNE ZINC COMPANY imports largely from its works in Belgium WHITE OXIDE of ZINC in a dry powder, and the casks bearing their mark, V.M., are only to be considered as genuine, and may be obtained, for grinding in oil, at any of their Agents', residing in the following towns, viz.: London, Liverpool, Birmingham, Hull, Newcastle, Leith, Glasgow, Bristol, Plymouth, Falmouth, Dublin, Cork, Belfast, and Jersey.

The same oxides ground and "pure" to a White Zinc Paint, may be also obtained from the Company's Agents of the above-mentioned localities, as likewise from their Grinding Agents, Messrs. C. DEVAUX and CO. 68, King William-street, City, London; and Messrs. BOST, ANDERSON and CO. Timber Bush, Leith, Scotland. Pure White Zinc Paint may likewise be purchased from Messrs. GLENDELL SPENCE, and Co. Hull.

For further particulars apply to Mr. H. F. SCHMOLL, General Agent for the United Kingdom, at the Company's Offices, 13, Manchester-buildings, Westminster-bridge, London.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE;
Manufacturers of

PATTINSON'S OXICHLORIDE of LEAD.—The Washington Chemical Company having, during the last year, established a Manufactory of Pattinson's Oxichloride of Lead on a large scale, and being able to supply it with regularity, and to execute orders without delay, now proceed to bring into new and valuable preparation of Lead before their friends and the public, quite sure that it will not, in the present age, be condemned because it is new, and that if judged by its merits, it must make its way, and finally take its place as one of the important manufactures of this country.

Pattinson's Oxichloride of Lead is a chemical combination of one equivalent of Chloride of Lead, and one equivalent of Oxide of Lead; it being well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent of Carbonic Acid, constituting what is called in chemical language, Carbonate of Lead. Now there is no reasonable ground to think that Carbonate of Lead is the only combination of lead valuable as a paint, and still less that it should be the best compound of lead for that purpose. The point of fact is as follows, for the newly-discovered Oxichloride is as set, if not in all respects is far superior; its colour is brilliantly white, and in a number of cases has been found to be much whiter than White Lead; it can also be obtained, and after a period of upwards of two years has been found to retain its white colour, considerably better than the lead against which it was tried.

But the chief and by far the most important advantage it possesses is its remarkable and very decided superiority of Body; by which term the power of covering surfaces well and extensively, is usually understood. The proprietors of the discoverer venture a very hardy period from this circumstance, and since that time, the Washington Chemical Company have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed, in the best way, by various practical men, to accurately ascertain its covering power as compared with the best White Lead, and they now state the proportions to be as 60 to 100, that is, 60 lbs. of Oxichloride paint will cover as much surface as 100 lbs. of the best White Lead, the saving of cost being in the same proportion; besides this, the coating is thicker and more protecting, and is not cut of doors, as the Oxichloride dried into a tough, homogeneous layer, more like an Enamel than Paint.

In using the Oxichloride no difference in the materials with which it is mixed is required. Oil and Turpentine being employed in usual bulk for work particularly called Painting; and for work intended to be varnished. For the use of Paper Stainers and Leather Dressers, the Oxichloride is found to be peculiarly suitable. The Washington Chemical Company have already commenced their newly discovered substances to the notice of consumers, both on account of its economy, and its intrinsically good qualities as a paint.

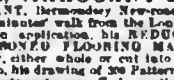
OFFICE IN LONDON.—Mr. R. COOKE, No. 7, Bloomsbury Office of the Washington Chemical Company,
71, Grey-street, Newcastle-on-Tyne, January 1, 1852.

REDUCED PRICES.—EDWARD SIMMS (late William Cheere), of Wilton-road, Pimlico Basin, begs to acquaint Builders and the Trade that he has now on hand, at his Machinery (the first of its kind ever established), a very large Assortment of Dry and Well-seasoned OAK and DEAL PREPARED FLOORING BOARDS and MATCH BOARDING of all sorts, from ½ inch to 1½ inch thick, planed to a parallel width and thickness, and at greatly Reduced Prices. Also, Timber, Deals, Oak Planks, Scantlings, Sash Sills, Mouldings prepared by Machinery, Lasts, &c.—Apply as E. SIMMS (late W. Cheere's) Flooring Manufactory, Wilton-road, Pimlico Basin.

PREPARED FLOORING.—ALFRED ROSLING begs to call the attention of Builders and Consumers generally to his STOCK of BOARDS, prepared to the best possible manner, and fit for present use; their superiority to the floor boards generally sold being sufficiently evinced by the greatly increased demand. A. ROSLING is in a position to offer every description of Baltic and other deals imported into this country at the lowest possible price consistent with fair trading; and begs to solicit the orders of those who have not as yet favoured him. Sealing entered he can offer them advantages which they will appreciate.—Southwark-bridge Wharf, Bankside.

T. ADAMS, MAHOGANY and TIMBER MERCHANT, Thermadeley New-road, near the Bricklayers' Arms, Lee Minister walk from the London-bridge Station, will forward, upon application, his REDUCED LIST of the PRICES for SEASONED FLOORING MATCHED BOARD, Deals, and Timber, either whole or cut into any thickness and scantling, &c. Also, his drawing of 200 Patterns of MOULDINGS, on receipt of two postage stamps.—T. A. continues to offer all the advantages as stated in his previous advertisements.

TO BUILDERS AND OTHERS.
SEASONED WOODS, by the Patent Desiccating Process, FOR SALE, at R. J. FULLER'S Depôt, 27, Wharf-road, City-road.



MUIR'S PATENT PLANING MACHINE.

SAW MILLS, GILLINGHAM-STREET, PIMLICO.
TIMBER of any size, PLANKS, DEALS, and BATTENS, &c., sawn on the most approved principle; Boards, &c., prepared, matched, and grooved, by Muir's Patent Machinery. The Mills have all the advantage of navigation and water-carriage, being connected with the Thames by the Grosvenor Canal. Goods fetched from the docks, and carted home free of charge.

Address to HENRY SOUTHAM,
Saw Mills, Gillingham-street, Pimlico.
N.B. Estimates given for Sawing and Planing.

THE GENERAL WOOD-CUTTING COMPANY, TIMBER WHARF,
SAWING, PLANING, and MOULDING MILLS,
Belvedere-road, Lambeth, near Waterloo-bridge,

are prepared to supply timber and deals, &c. cut and sawed, to any extent, at the current prices of the day. They keep a large stock WELL-SEASONED FLOORING and MATCH BOARDS, which, being manufactured by themselves, they offer at the lowest remunerating profit. Buyers of timber, &c., from the company will find their extensive saw mills a convenience for the immediate conversion of their purchases to any purpose which may suit them.

The Company has learn to call the attention of the trade to their NEW MOULDING LIST, the largest ever published, and to state that, in addition to the numerous patterns therein delineated, their machinery enables them to execute every description of mouldings, from drawings, &c., with an accuracy and despatch which must insure satisfaction.

The moulding list, containing nearly 300 diagrams, with prices attached, may be had at the mills, or shall be forwarded on receipt of six postage stamps (the amount of the postage thereon).

N.B.—The Company (without previous preparation) manufactured and delivered to the Great Exhibition fifty statute miles of mah bars within ten days after receiving Messrs. Fox, Henderson, and Co.'s order, which them gentlemen have certified, and that the work was executed to their entire satisfaction.

MOULDINGS BY MACHINERY.—ARCHBUTT and ATKINSON have just published a new and enlarged list, containing nearly 300 diagrams of Mouldings, with prices attached, lower than any ever yet offered. A copy will be forwarded on receipt of four penny postage stamps.

A. and A. have also on sale
FLOORING PREPARED and PLANED
parallel width and thickness by improved patent machinery, at greatly REDUCED PRICES, as under:—

Per square.	£	s.	d.	Per square.	£	s.	d.
inch Yellow	16	0		¼-inch White	15	0	
¼-inch ditto	14	0		¼-inch ditto	13	0	
½-inch ditto	13	0		½-inch ditto	12	0	

180 feet run of ½-inch boards to the square, and 180 feet run of ¾-inch battens to ditto.

Timber, Planks, Deals, Battens, Scantling, Sash-sills, &c. at equally low prices.

TERMS CASH. Saint Panceras having, Planing, and Moulding Mills, Cambridge street, Old Saint Panceras road, close to the Goods Terminus of the Great Northern Railway.

MACHINE-STRUCK MOULDINGS.—JAMES FRANCE HILL, WOOD MOULDING MANUFACTURER, 30 Wharf, North Wharf-road, Paddington, in soliciting the patronage of BUILDERS and OTHERS, begs respectfully to impress on them, that all Mouldings manufactured at his Establishment are well-seasoned, highly finished, entire well, and free from that great amount of waste of which consumers too frequently have to complain. J. F. H. also confidently asserts that his prices for Mouldings are regulated on the lowest possible scale, and of a quality not surpassed by any house in the trade, as on no article who favour him with their commands will find. Lists of sections forwarded on application. A large stock constantly kept on hand, and country orders promptly attended to.

TO BUILDERS
TO BE SOLD, TWO MODERN SHOP FRONTS, nicely ornamented, 16 feet by 13 each, with about 70 feet of flooring joists nine rooftiles, and bricks.—Address, or apply to C. M., 21, West-street, Green-street, Bethnal green.

CHARLES WM. WATERLOW,
Manufacturer of Meshes and Frames, and Joiner to the Trade,
12, Bunhill-row, Finsbury-square.

Well seasoned materials, superior workmanship, lowest prices.
Upwards of FOUR HUNDRED DOORS, and a large variety of Meshes and Frames, always on sale.
Glazed goods securely packed for the country. Bloom-struck mouldings in any quantity.
N.B. This Establishment is worth the notice of all engaged in building.

NOTICE of REMOVAL.—JOHNSON & PASK, Sash, Shop Front, and Door Makers to the Trade,

beg to inform their Customers and the Public generally, that they have removed to more extensive premises to
BAKER-STREET,
BAGNIGGE WELLS-ROAD,
where they have more convenience for carrying on a larger business.

N.B. By inclosing a postage stamp a full list of prices may be had by return of post.

TO DRAUGHTSMEN AND CIVIL ENGINEERS.
H. MORRELL, BLACK LEAD PENCIL MANUFACTURER, No. 130, Fleet-street, London.

These Pencils are prepared in various degrees of hardness and shading.

H H H H for drawing on wood.	F F light and shading
H H H for architectural use.	F for general use
H H for engineering.	A black for shading
H for sketching.	B B ditto ditto
H B hard and black for drawing.	B B B ditto ditto
	B B B B ditto ditto
B medium.	

Sold by all the principal Stationers in town or country

TO BUILDERS CONTRACTORS AND OTHERS
WANTED, a quantity of good, old hard STOCKS, to be delivered alongside to barge at East Greenwich, or put into a barge at any point in the River Thames or any of the Canals, or into carts in any part of London within a mile of water carriage. Cash prices.—Address JOHN MOWLEM and CO. 13 Wharf, Paddington.

MINTON and CO.'S ENCAUSTIC and other PATENT TILES for Churches, Entrance Halls, Conservatories, Balconies, &c.; Antique, Geometrical, and Majolica Mosaics, manufacturers of a highly decorative character and extreme durability, Slabs and Tiles for Fireplaces and Hearths; Coatings for Grates, Door Furniture, White Glazed and Ornamental Tiles for Baths, Dairies, and Kitchen Ranges, may be had in great variety at their Warehouse, 9, Albion place, Blackfriars-bridge, London, and at their Manufactory, Stoke-upon-Trent, Staffordshire.

MAW'S ENCAUSTIC TILES.—Prices and Samples (Plain or Glazed) of this beautiful and durable production of mediæval art, and Patterns appropriate for the floors or walls of public and private edifices in every style of Architecture, forwarded on application to MAW and CO. at their Works, Worcester. N.B.—Plans of spaces to be paved covered with arrangements of Tile Patterns, without charge.

NEW BRICKS.—Mr. R. GOUGH
Begs to announce that he is now prepared to deliver COWLEY and KENT BRICKS from the new CLAMPS, 37, Newington-crescent, Newington Butts.

HOOPER'S WHITE BRICKS, moulded for Pilatha, Jamb, Chimney shafts, Wall copings at from 2s. to 4s. per foot cube; Paving Tiles of different patterns, encaustic, red, and blue; Fancy Moulding and Ridge Tiles, coloured to match, or for slate; White Rebate Tiles, for facing buildings, &c. sent to all parts of the country direct from the kilns.—Offices, 1 Portland-street, Southampton, where samples and illustrated price-lists may be had on application, post-paid.

BRICKS.—H. DODD is enabled to offer his BRICKS, which are of good quality, at the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order to inspect his stock and to judge for themselves:—

		Per Thousand
Marls cutters	35s.	"
Yellow seconds	28s.	"
Pale seconds	30s.	"
Paviors	45s.	"
Pinkins	20s.	"

Delivered within two miles of the fields.

Marls place, half-washed stocks and place bricks, at equally low prices. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the stock being suitable for external facing.—Apply to HENRY DODD and CO. at the Counting-house, Hesters Brickfields, Grange-walk, near the Rosemary Branch, Horton. N.B.—Red pit sand of approved quality constantly on sale, upon reasonable terms; this sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.

PAN TILES, 48s. per 1000; PLAIN ditto, 32s. 6d. per 1000; FIRE BRICKS, 45s. per 1000.—WARD and CO. Hoxdurus Wharf, Bankside, are now offering their Fire Goods (being about to make a considerable alteration in their Premises) at very reduced prices. Dutch Clinkers, Window Loam, Tiles, and Bricks; Fire-clay, superior, 12 inches and Blinches; Paving Tiles of a rich colour, at a very low price. Gas Bricks and sheared Tiles.

ORNAMENTAL TILING for ROOFS.—The Society of Arts awarded Mr. ROBERT BROWN a Medal for his improved Italian Tiles, and the Great Exhibition of last they were awarded a Prize Medal, and were the only Italian tiles specifically named by the jury. These tiles have been used by Sir Onsaulus Ramy, and other architects, and have met their marked approval; they have also received the approval of eminent men in most parts of Europe. The slight curve enables the layer of tiles to be fixed closely together without mortar or cement. The horizontal indentations form a perfect security against the beating rains; when on a building, they have the exact appearance of the most admired form of Italian tiling. The grey or green colour is lasting, and is permanent. They are supplied at a stated price per square.

ORNAMENTAL PLAIN TILES, in great variety, made from the Harbton clay, and also from the Staffordshire terra-cotta clays, at per square.

PLAIN GOTHIC RIDGE TILES, HOP and VALLEY TILES, and COPING BRICKS.

The GROOVED RIDGE TILE, for the reception of any carved outline of vertical ornament, was invented by Mr. Robert Brown, and for which invention he also received from the Society of Arts a medal. He now makes the above tiles, of any design, from the Harbton clay, as also from the Stafford-shire terra-cotta clay. He has lately devoted great attention to the varied conditions of form, so as to adapt them to the different periods of Gothic Architecture. The attention of architects is particularly invited to these ridge tiles of a green colour. They are supplied at a stated price per foot run. Mr. Robert Brown trusts that architects who favour him with their orders for the worthy introduction, will think it but fair and honourable that the inventor should supply them, provided he does so as cheaply and well as any other party. But should even this hope not be realised, he will still have the satisfaction of having been the inventor of an article which has become of universal adoption.

TILE WORKS, BURBITON-HILL, SURREY.

TERRA COTTA and SCAGLIOLA manufactured by J. M. BLASHFIELD, Mill Wall, Isle of Dogs, and sold at No. 1 Wilton-place, Pimlico-street, Paddington.

Vases, tazzas, friezes, capitals, coats of arms, chimney shafts, trusses, flower pots, and all ornamental work required to stand heat and frost without cracking or changing colour, may be had at nearly the same cost as casting in cement.

Terra Cotta is more durable than iron, granite, marble, or stone, and may be made of black, red, and lighter cream colours of every shade. It can be more accurately and delicately wrought than either stone or marble, and architects can have their own designs modelled and dried in this material (without moulding and the chance of stopping) from the hands of the artist.

VALENTIA SLATE SLABS.—The Valentia Slab Company invite attention to their Slabs now supplied, of very large dimensions and of superior quality. They have been used at the British Museum, National Gallery, Bethlem Hospital, various lunatic asylums, the Ordnance Works, Model Prison, Pentonville, and other penitentiaries, Malting Floors in Bedfordshire and Hertfordshire, Breweries, the Race Stand at Brighton, Parade, smooth Barracks, and are kept in stock in large quantities at Freeman's Wharf, Millbank-street; also by Messrs. SHARPE, Tooley-street; and Messrs. SHARPE, Belvedere-road, where terms may be obtained.

THE PIMLICO SLATE WORKS.
Patronized by Royalty, the Heads of the Nobility, the Clergy, Architects of Eminence, Builders, Railway Contractors, and the Public generally.—MAONUEN ENAMELLED SLATE (notwithstanding the vile imitations and infringements of his patent that are attempted) continues to grow in favour with the public, being handsomer, more durable, and very much cheaper than marble.—Price lists and a sheet of drawings, sent to any part of the kingdom gratis. Cisterns, Filters, Dairy and Larder Shelves, Wine Cellar Fittings, Slabs, and every variety of plain Slate Work, at prices that defy competition.—49 and 50, Upper Belgrave-place.
